DEDICATION

As we prepare ourselves to encounter
the powerful reality of humanity
which waits
for our strength, our youth,
our readiness, as witnesses,
to impart truth
and to defend it,
we are grateful
to God,
to our teachers, to others
who have helped us mature
in a Christian atmosphere.

But it is our mothers and fathers
who have, in a special way, made possible
these four years
in which to study,
to question
to meet with other minds,
to examine our philosophy of life.

We acknowledge that we are now responsible
for spreading a peace
which is not a mere truce,
a justice
which is denied to no one
and a freedom
for peoples everywhere
to lead fully human lives.

In a spirit of gratitude, we dedicate
this 1966 **Teachers' Bulletin**
to our generous parents.

Foreword

College Misericordia presents the education students of the class of 1966. The purpose of this publication is to introduce to school administrators the members of this class who may apply for teaching positions in their respective school districts.

The qualifications of the students are included along with a list of their individual activities. A key to abbreviations used for club activities will be found in the back of the book.

Further information may be obtained by writing the Placement Office, College Misericordia, or by contacting individual students.

At a time when the world is in a chaotic state, one is not surprised to find a kind of revolution in education. Success in the revolution is imminent only if proper steps are taken to insure it.

This means involving those concerned with education, both from within and outside the field, to scrutinize honestly, responsibly, and thoroughly what facts of education need to be altered and which basic truths must be recognized as immutable.

Inherent in this is the need for teachers to subscribe to a worthwhile philosophy in their own lives; to set personal and professional goals and to couple with this a willingness to work to attain these goals. In the light of the world situation, teachers need to instruct students in the effectiveness of real communication.

Youth, to become worthy citizens, must be helped to understand and appreciate their cultural heritage and the heritage of world cultures; to develop a respect for learning. They must be guided in valuing attitudes of intellectual honesty and personal responsibility. From their efforts, teachers may hope to fulfill the dominant purpose of education, namely, the development of the intellectual potential of the student, for everyone is destined by his Creator to become a whole person.
